Respond to Elizabeth Mowat, Brent Davis & Others

Wiki

The early musings that led Kris Green and Bernard Ricca toward their response piece in this volume (Green & Ricca, 2010, pp. 63-69) took place in a wiki environment. This allowed them to muse at their own pace before they started conversing face to face about various issues. All readers are welcome to add comments and continue the conversation that was begun by these authors on that wiki. The wiki can be accessed at <http://mathlearningasnet.pbworks.com>. Interested readers can be added as users who can post documents, add and edit pages, and, in general, further contribute to the site.
